Overview

Continental Engineering Services at a glance

Profile

We are...

- › an engineering and technology provider.
- › a one stop shop – from the idea to the product.
- › a gateway to high volume automotive products.
- › more than 1,800 experienced engineers & specialists.
- › developers of the technology for future mobility.

Focus Technologies

- › Electrification & Emission Reduction
- › ADAS & Autonomous Driving
- › Chassis & Brake Technology
- › Connectivity, Digitalization & Big Data
- › New Mobility Ecosystem
- › System Complexity

Service Portfolio

Consulting & Specialist Support

- › Software Consulting
- › Simulation Engineering
- › Security & Privacy
- › Research & Development Process Consulting
- › Functional Safety Management

Concept Creation

- › E/E Architecture
- › Requirement Engineering
- › Brake System Conception

Development

- › Software Factory
- › NVH
- › Hardware Development
- › Systems Engineering
- › Data Services

Testing & Simulation

- › Brake System Test & Validation
- › Virtual Vehicle Testing
- › Test Benches
- › Driveline Performance Simulation
- › Software Test

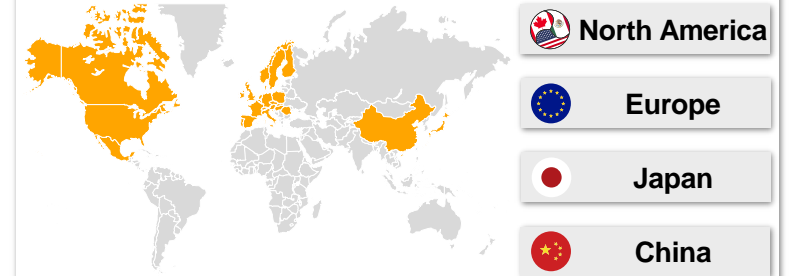

Manufacturing & Small Series

- › Electronics
- › Samples & Mechanical Solutions
- › Small Series

Integration

- › System Integration
- › Virtual Integration
- › Vehicle Integration & Workshops
- › Software Integration

Areas of Operations

Our Customers

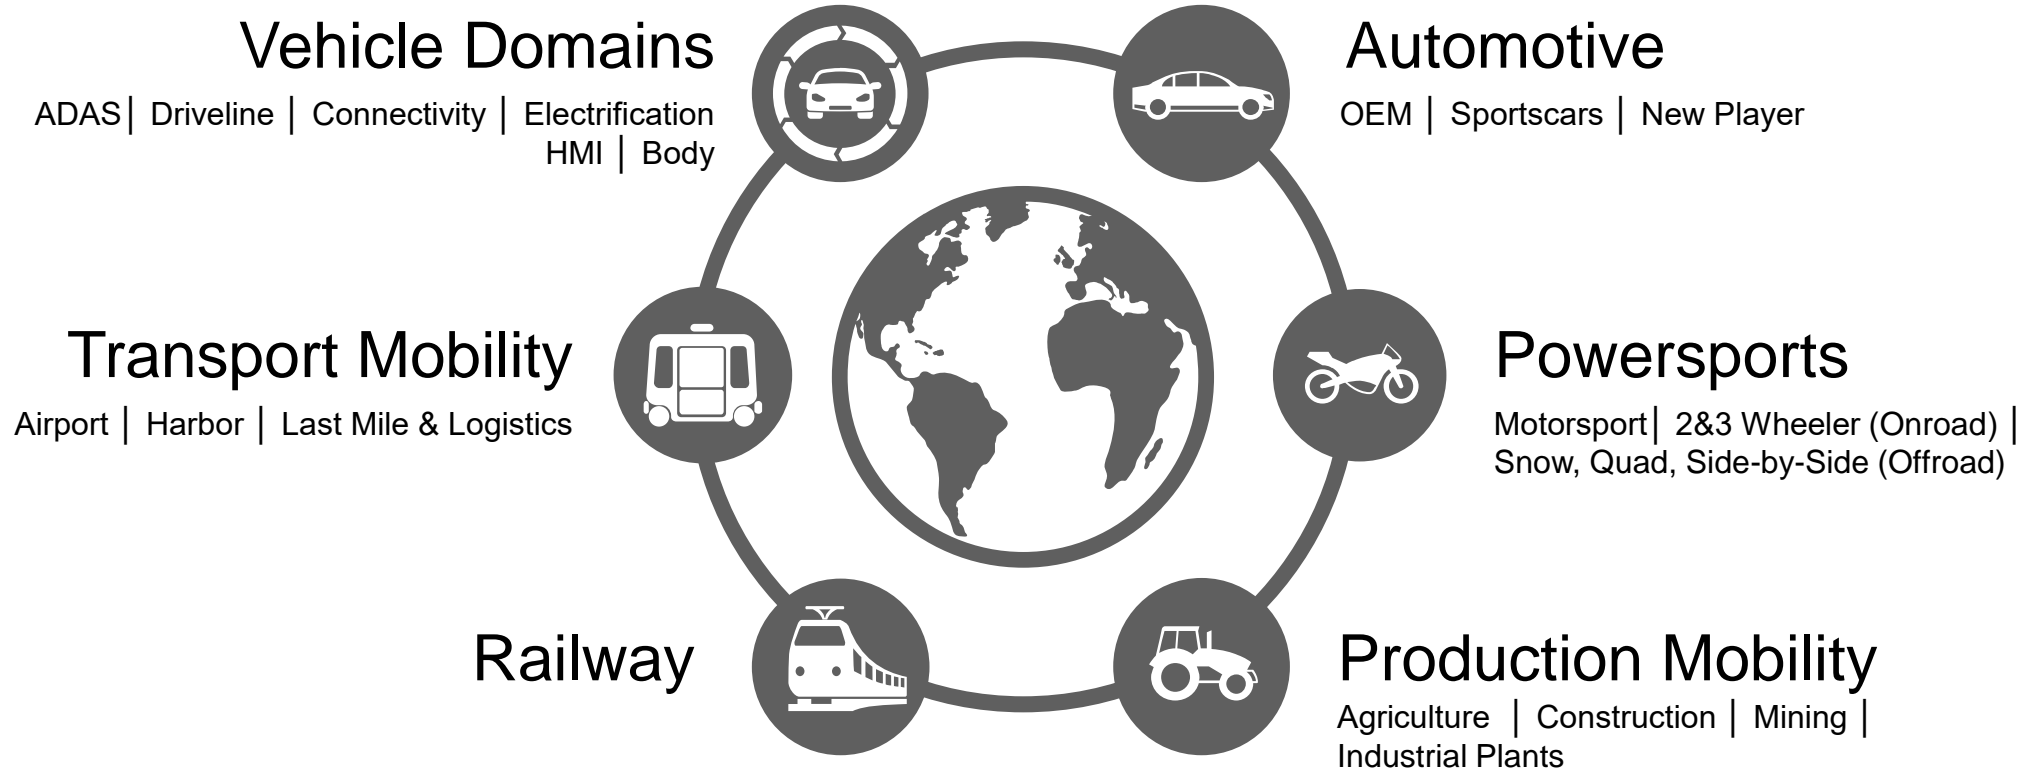

We are Technology Partner of Choice ...

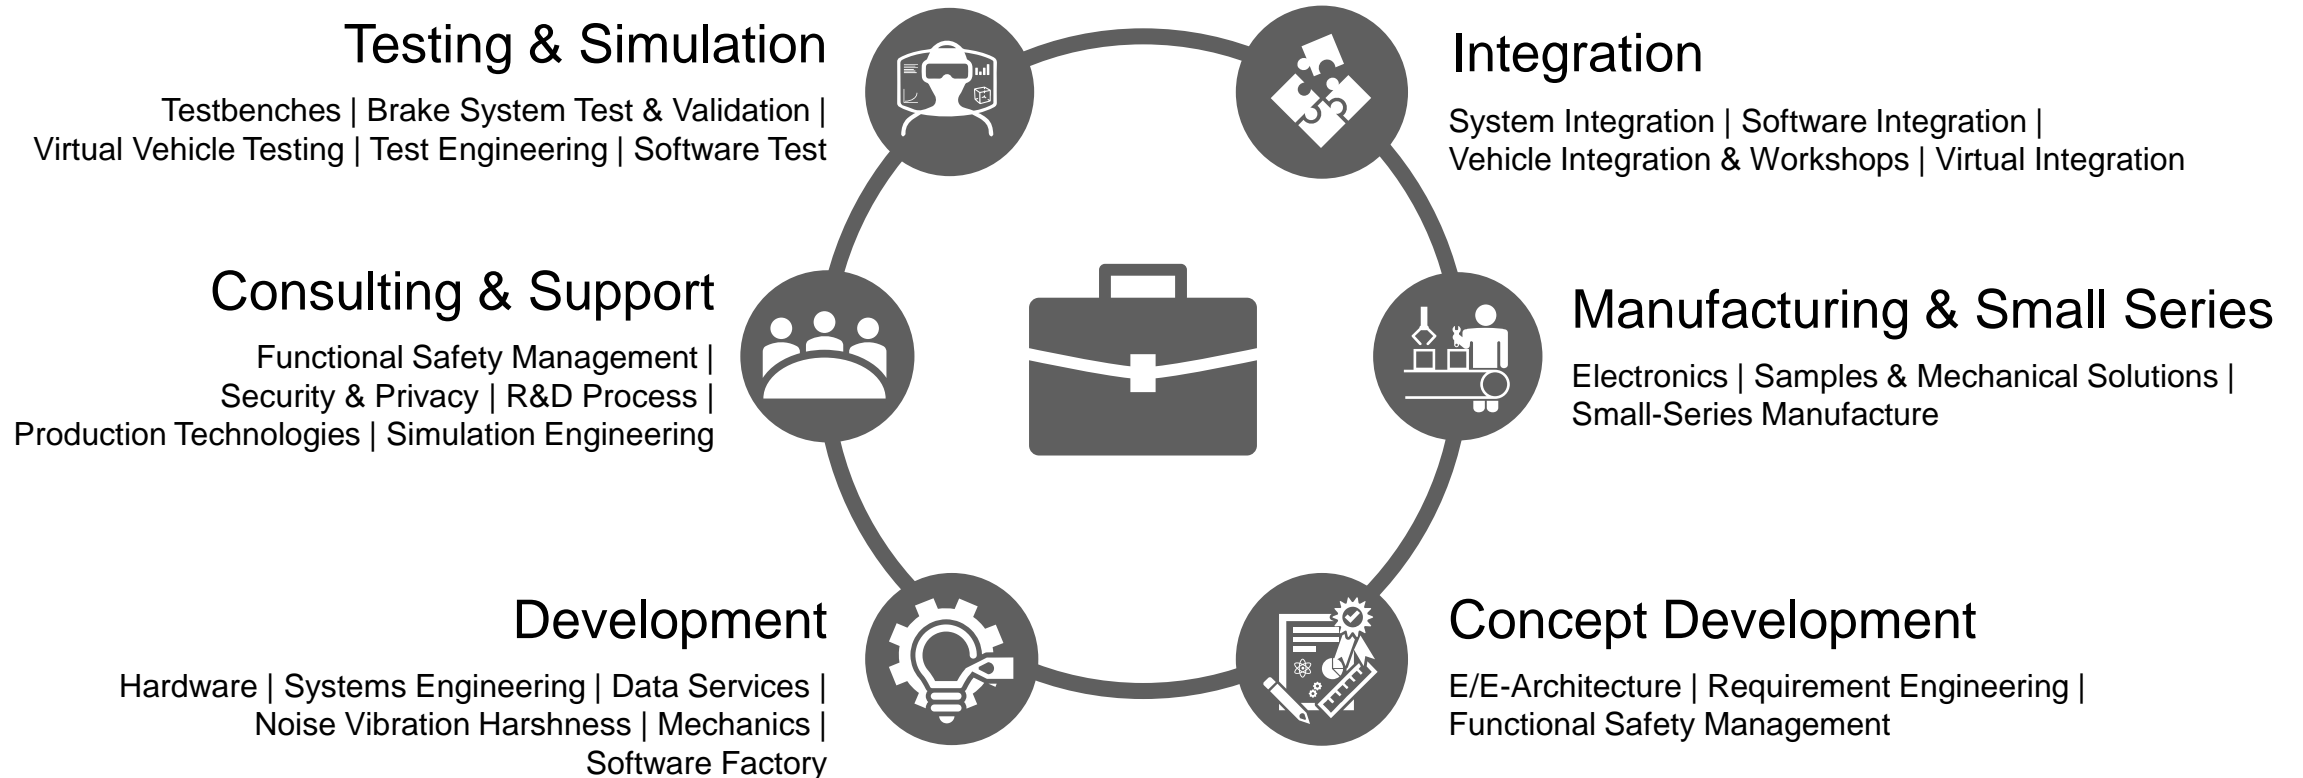

VISION

- ... by generating technical solutions
- ... by being pragmatic
- ... by being versatile
- ... by being responsive

MISSION

by being entrepreneurial, sustainable and opportunity driven.

Continental Engineering Services

Our scope within Continental Corporation

Autonomous Mobility and Safety

- › Advanced Driver Assistance Systems
- › Hydraulic Brake Systems
- › Passive Safety and Sensorics
- › Vehicle Dynamics

Vehicle Networking and Information

- › Connected Car Networking
- › Human Machine Interface
- › Commercial Vehicles and Services

Vitesco

- › Contract Manufacturing
- › Electronic Controls
- › Electrification Technology
- › Sensing and Actuation

ContiTech

- › Air Spring Systems
- › Conveyor Belt Group
- › Industrial Fluid Solutions
- › Mobile Fluid Systems
- › Power Transmission Group
- › Surface Solutions
- › Vibration Control

Tires

- › Passenger Cars & Light Trucks
 - Original Equipment
 - Replacement Business
- › Commercial Vehicle Tires
- › Two Wheel Tires

Automotive Technologies

Continental Automotive GmbH (ContiTemic, ContiTeves.....)

Powertrain Technologies

Vitesco (Emicat)

Rubber Technologies

ContiTech AG..

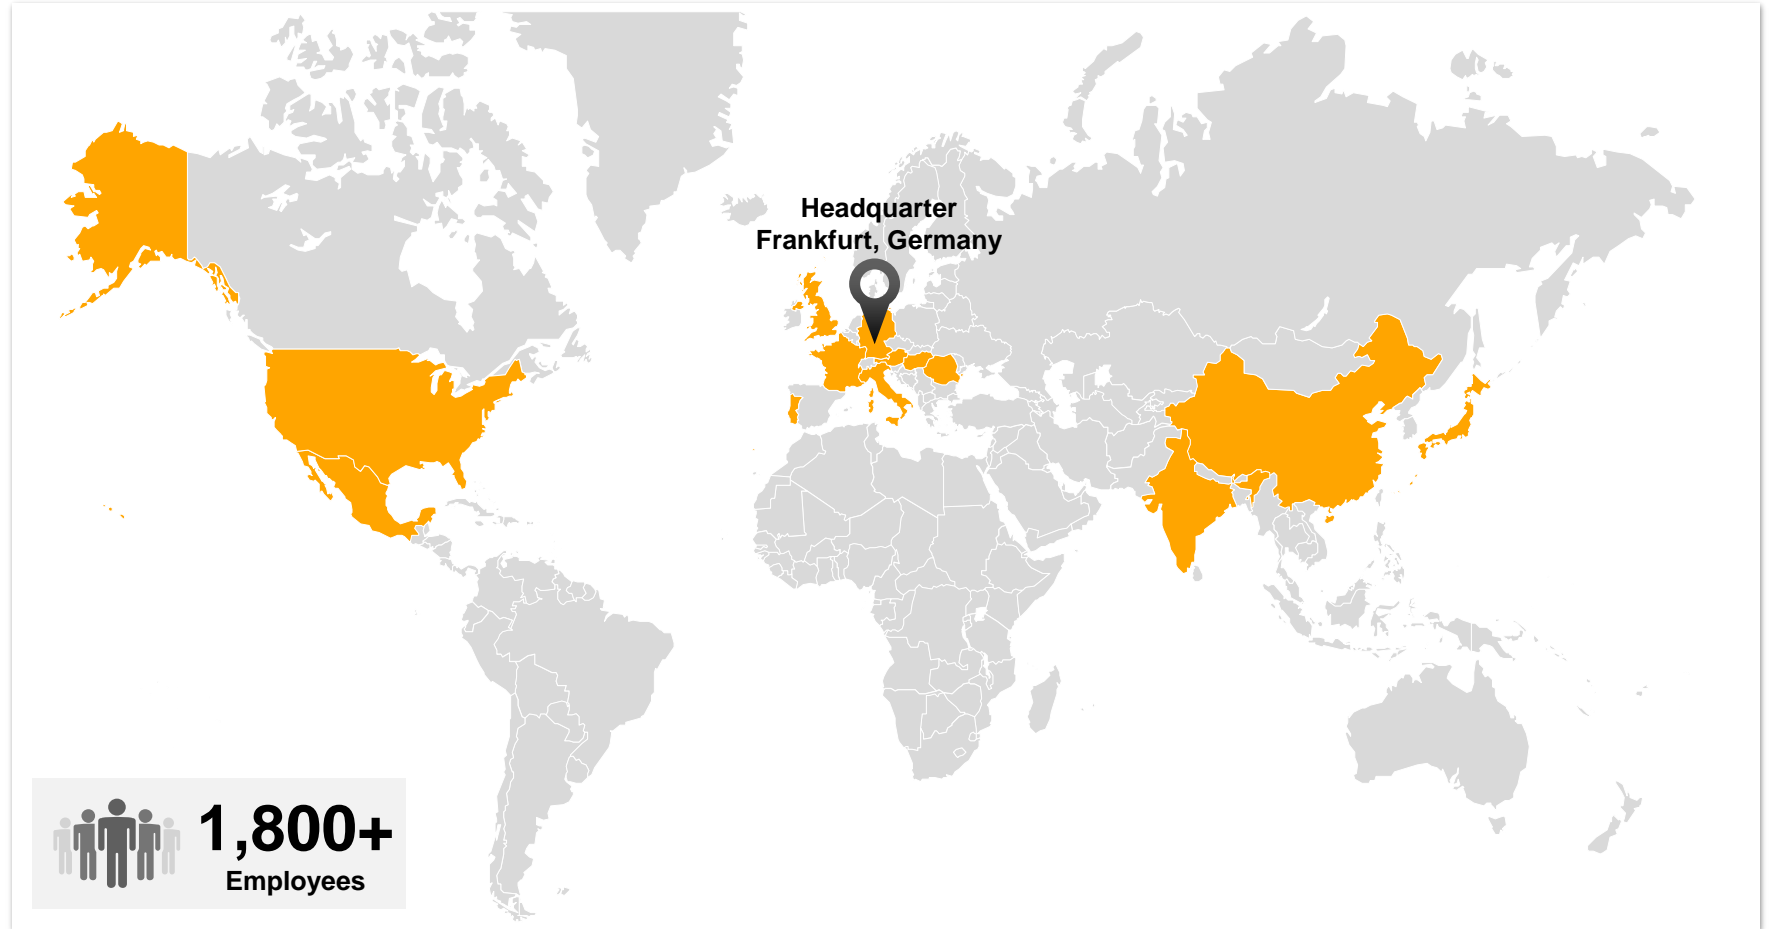

Continental Reifen GmbH..

Global Footprint

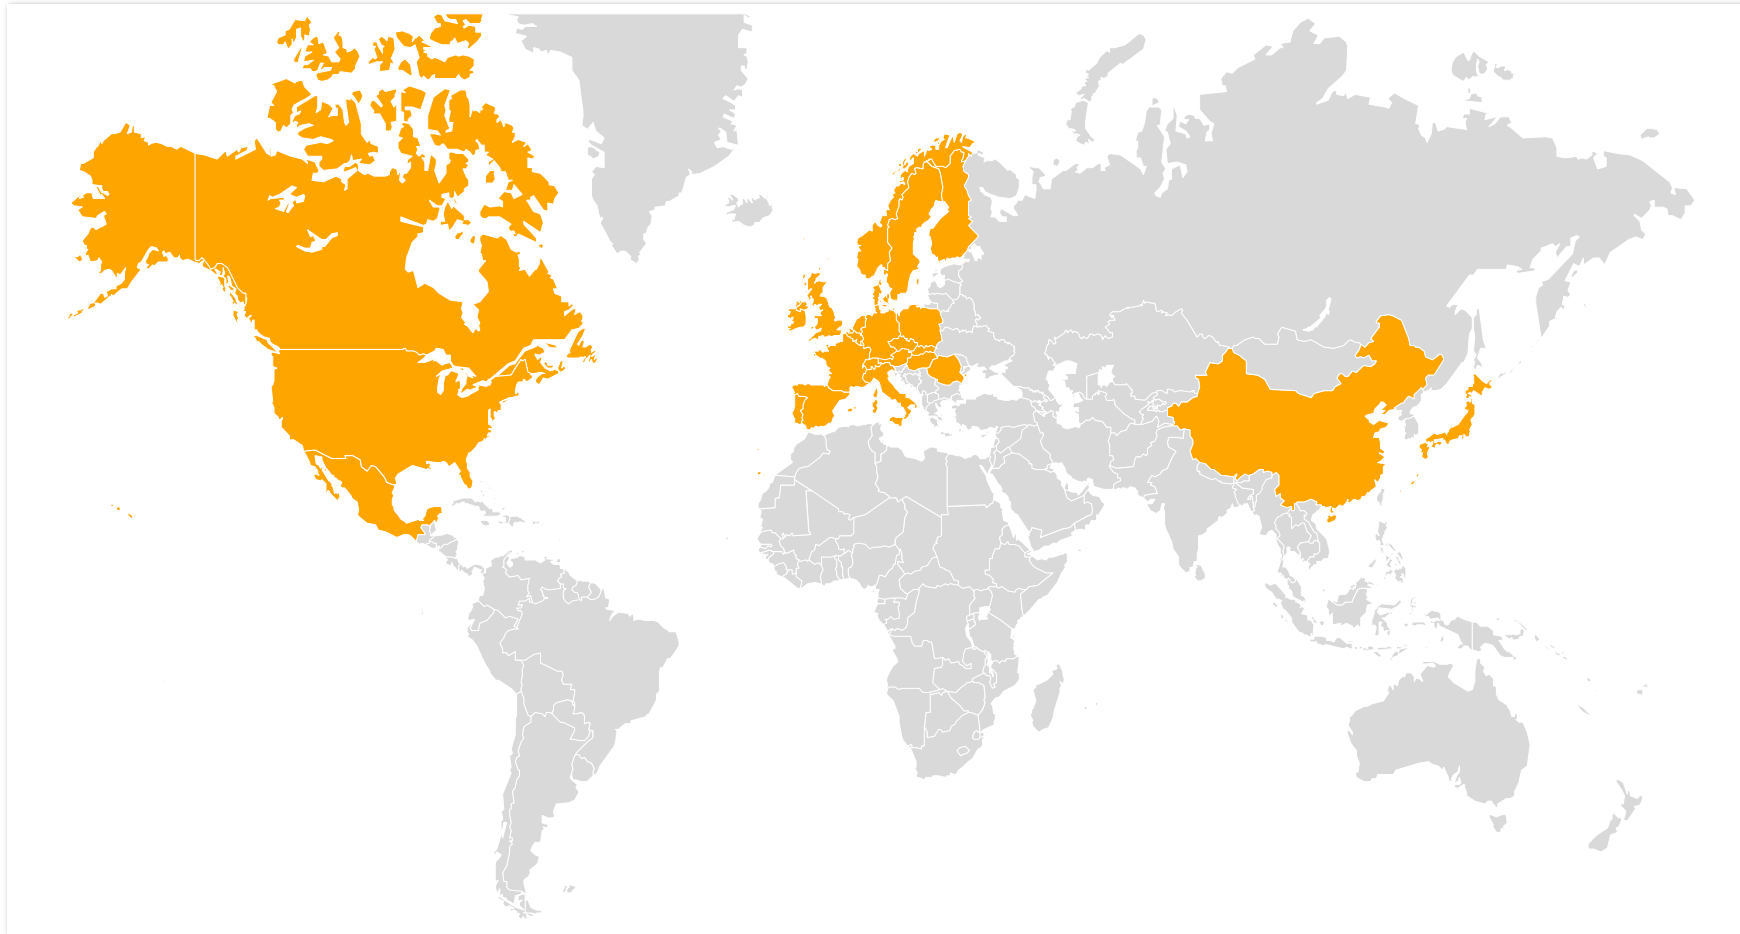

23 Worldwide Locations with 1,800+ Employees

- › Frankfurt (DEU)
- › Babenhausen (DEU)
- › Ingolstadt (DEU)
- › Karben (DEU)
- › Markdorf (DEU)
- › Munich (DEU)
- › Nuremberg (DEU)
- › Regensburg (DEU)
- › Stuttgart (DEU)
- › Vienna (AUT)
- › Turin (ITA)
- › Veszprém (HUN)
- › Timisoara (ROU)
- › Gyancourt (FRA)
- › Toulouse (FRA)
- › Lichfield (GBR)
- › Burgess Hill (GBR)
- › Bangalore (IND)
- › Shanghai (CHN)
- › Auburn Hills (USA)
- › Guadalajara (MEX)
- › Yokohama (JPN)
- › Porto (PRT)

Field of operations

Our four key-regions

North America

Europe

Japan

China

We serve the automotive industry and transfer technology to other industries

We can develop “from a clean sheet of paper”
or based on proven high volume components

„Clean Sheet of Paper“ Approach

Modification of proven
Conti components

A.

B.

We are development and production partner for challenges in the automotive and industrial market

Our business model

At a glance

- › Consulting & Support
- › Concept Development
- › Development
- › Integration
- › Test & Simulation
- › Production (Additive Manufacturing, Small Series, Prototypes & Samples)

Customer

Continental 

Business Units

- › Volume production

Examples from our customer portfolio

Automotive and other branches

Your benefits from working with us:

Additional Competencies, Flexibility, Efficiency

Access to additional
competencies and capacities

React flexibly
on new demands

Realize R&D
efficiently
